Synopsis

Mars and Stelios, two young men in a close friendship, make a new start, away from the din of the city. They choose a remote location, a harsh and barren land and erect a greenhouse and start a new life.

Although their characters are different, they live peacefully and happily, making hard work look like play.

But all will change the day Cordova arrives. The beautiful young German will disrupt their lives, awakening their sexual desire. She is torn between the two friends, because they both together make for her the ideal man.

Two men, faced with a temptation.

A woman faced with a dilemma.

A strong friendship to the test.

Three lives entangled in a love mast, below the glowing, crimson sky.

About the Director

Laya Yourgou is an actress, director, producer and writer. Her filmography includes direction credits for seven feature films including *Luibi* (2005), *Too Late Tomorrow* (2002), production credits for *Red Sky*, *Country House* and *Salome* and acting credits for *Unfair World*.
